Landscape Artificial Grass

UDINE SPORT provides endless creative landscaping solutions for the home and commercial environment. It is ideal for creating low-maintenance lawn effects in deep-shade areas, around pools, water features and pavers adding colour and underfoot softness to hard non-arable areas. Constructed out of durable, tufted yarns, UDINE SPORT is available in a range of pile heights, and is suitable for multiple applications. Our products can be supplied all over the world. Which is most suited to your needs?

TYPE	UBLG35180900
Color	3 tones
Pile Height	35MM
Gauge	3/8"

Pet Artificial Grass

UDINE artificial grass is the best artificial grass for dogs and their owners who need an alternative to real grass. If you're tired of common grass problems such as muddy patches, holes, and yellow stains on your lawn, our pet-friendly artificial grass is a durable, mess-free solution that looks great all year round.

Fake grass for dogs is a real sustainable alternative to real grass, as dogs will continue to play and run around on your lawn without turning your garden into a mud bath and bringing those muddy paws into the house. No more dirty footprints on the sofa. No more keeping the dog inside when the garden is wet.

- Easy to Clean
- No Muddy Paws
- Non-Toxic
- No Digging Holes
- No Harmful Chemicals
- No Stains or Patches
- Odour Free
- Low Maintenance
- Stays Green All Year Round

TYPE	ULLG35180900

Advantages Of Grass Yarn

	 Stem Grass	 C Shape Grass	 Diamond Shape Grass	 S Shape Grass	 V Shape Grass	 M Shape Grass
Weather Resistance	★★★★★	★★★★☆	★★★★☆	★★★★☆	★★★★☆	★★★★☆
Comfort	★★☆☆☆	★★☆☆☆	★★★★☆	★★★★★	★★☆☆☆	★★★★☆
Velocity	★★★★☆	★★☆☆☆	★★★★★	★★☆☆☆	★★★★☆	★★☆☆☆
Toughness	★★☆☆☆	★★★★☆	★★☆☆☆	★★★★☆	★★★★★	★★☆☆☆
Uprightness	★★★★☆	★★★★★	★★☆☆☆	★★★★☆	★★★★★	★★★★★

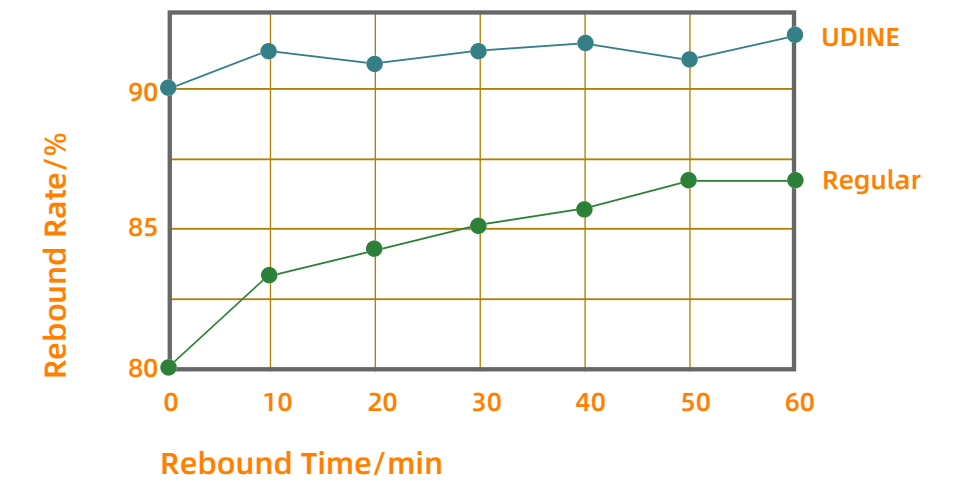

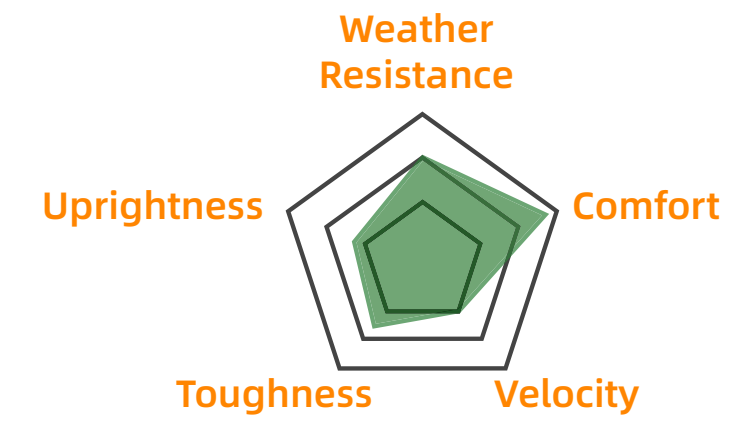

Diamond Shape Grass

Excellent durable, resilient and upright, comfortable, injury-protection. To provide better sports experience and feeling.

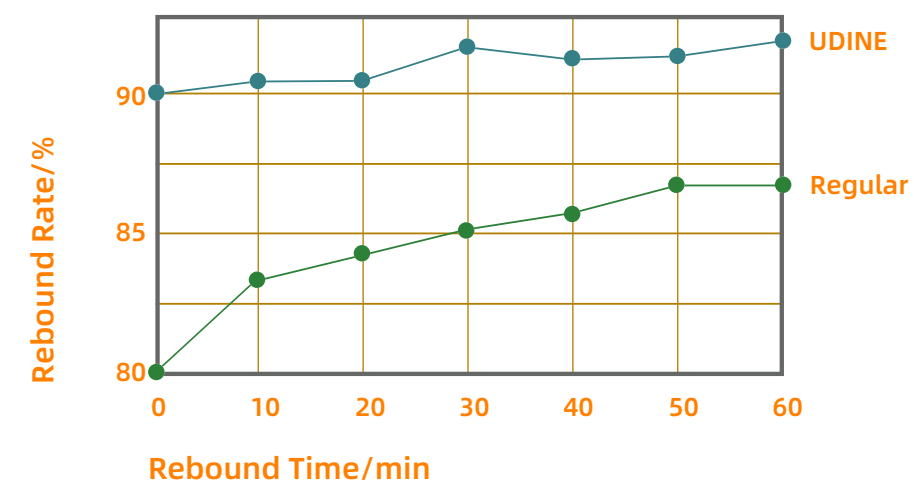

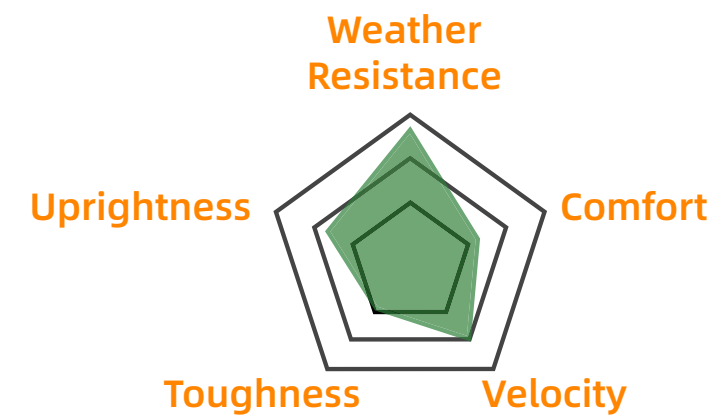

S Shape Grass

Achieve the movement index of natural grass, good drainage, effective anti-corrosion, anti-mildew, no colour fading and weather-resistance.

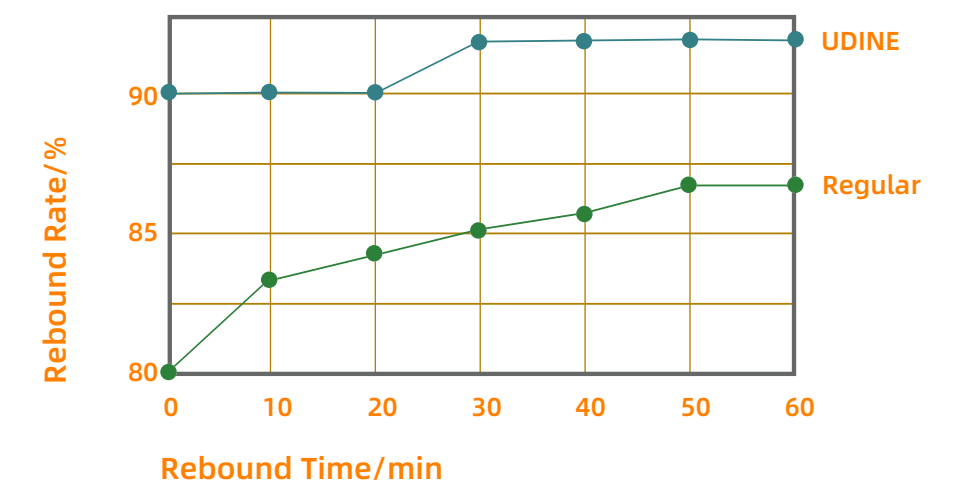

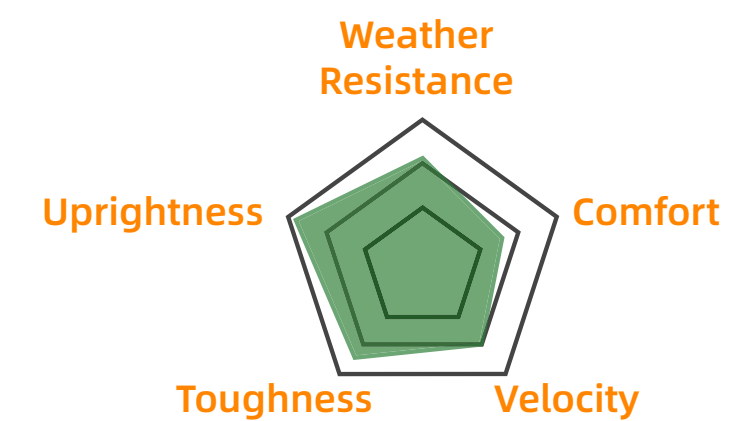

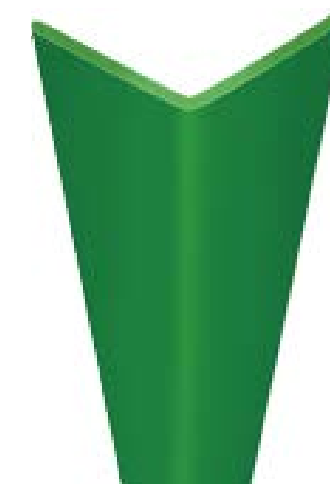

Stem Shape Grass

Good elasticity and softness, wear resistance, non - fading, uv protection, all weather.

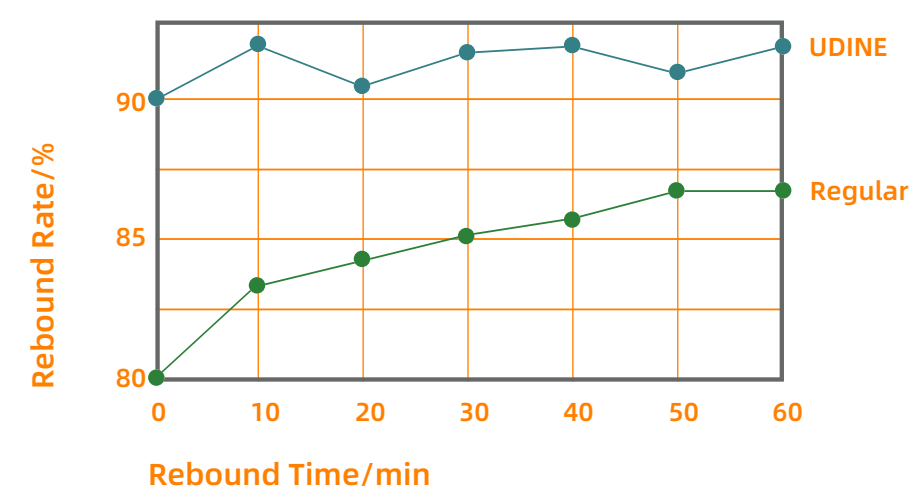

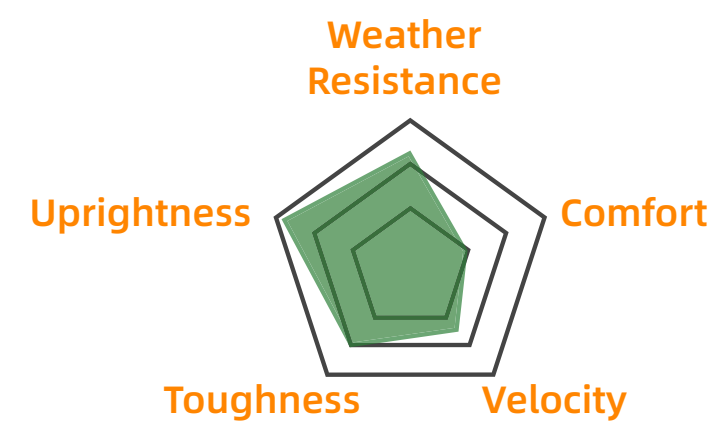

V Shape Grass

Unique shape and thickness for superior memory/toughness; fully reduces grass abrasion and sports injuries.

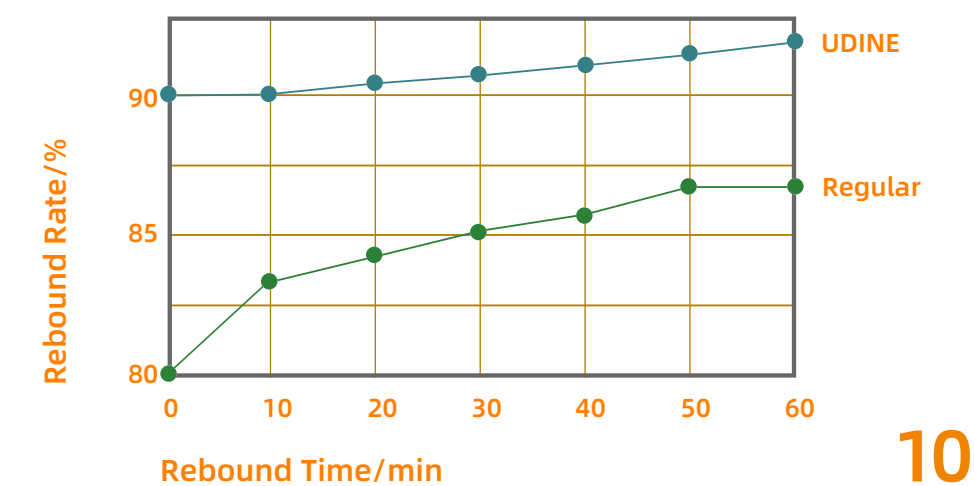

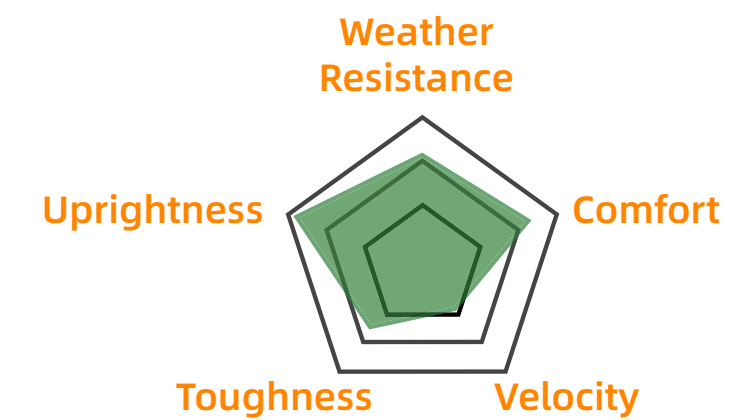

C Shape Grass

The unique cutting process has superior erectability, which makes it feel thick and has a long wear life.

M Shape Grass

To achieve the movement index of natural grass, good drainage, effective anti-corrosion, anti-mildew, color and other properties; All-weather use.

Customized Artificial Grass

Colored Artificial Grass

- Height: 25MM
- Density: 16800
- Detex: 11500

*Color, size, density and height can be customized according to customer needs. Please contact our sales manager for details.

Two Component Glue

The product has the characteristics of strong molecular designability, wide physical properties and wide application range of bonding. It is one of the important varieties of synthetic adhesives. Easy storage, high adhesive strength, wide application range, good weather resistance, etc.

ECO-Friendly Glue

Environmental friendly artificial grass glue, with environmentally friendly materials and strong leveling property; High strength bonding, suitable for artificial turf paving and bonding.

Lawn Edging

Edging solves the problem of large loss of artificial grass fillers caused by the foundation, and effectively reduces the maintenance cost. At the same time, the problem of site drainage is solved, the water permeability is fast, and the service life of artificial turf is prolonged.

PP Joint Tape

Joint cloth, used for lawn joints, is used in various sites, especially for rough surfaces. It has excellent corrosion resistance / aging resistance / water resistance, etc. The width is 20mm or 30mm.

Non Woven Joint Tape

The non-woven fabric is a joint product without glue on both sides, which is suitable for laying polyurethane PU waterproof bottom. The non-woven fabric is coated with special artificial grass glue to make the bottom of the lawn stick to the joint belt more firmly.

Self Adhesive Joint Tape

The non-woven single-sided adhesive tape is used for the joint of artificial turf. It is easy to use. Just stick the adhesive tape on the joint of two lawns to connect. The non-woven fabric at the bottom will play an anti-skid role, with the advantages of strong adhesion, increased friction and anti-skid.

Lawn Nail

The artificial turf nail is mainly used to fix the mud ground of the golf course lawn, garden lawn and other places that need artificial turf. It can better fix the lawn and anti grass cloth. It is easy to operate and has good stability.

U-Shaped Lawn Nail

The artificial turf nail is mainly used to fix the golf course lawn, garden lawn and other places that need artificial turf. It can better fix the lawn and anti grass cloth. It is easy to operate and has good stability.

Shock Pad

The high-density environmental protection cushion can effectively reduce the pressure caused by the sports process and bring excellent sports experience to the athletes. The thickness is 10mm-30mm.

ARTIFICIAL GRASS ACCESSORIES

Quartz Sand

Product parameters

- Mesh: 20-40 mesh

Purpose

It is used for filling all kinds of artificial lawns. It is super hygroscopic, loose and non caking, environmentally friendly and compressive, and improves drainage performance. Reduce heat on the ground, wear / protect the lawn. It can be recycled for many times.

Black Particles

Product parameters

- Product Material: Recycled Materials
- Glue Content: 30%
- Particle Size: 1-3MM, 2-4MM

Purpose

Black particles are suitable for filling artificial grass in football fields, with excellent elasticity, skid resistance and wear resistance Reduce the abrasion of human body when falling, and simulate the feeling of soil.

ECO-Friendly Particles

Product parameters

- Product Material: EPDM
- Glue Content: 8% - 40%
- Particle Size: 1-3MM, 2-4MM

Purpose

It is used for filling artificial grass in football field. It has excellent elasticity and can effectively reduce knee damage in sports. It is environmentally friendly and non-toxic.

Snowflake Particles

Product parameters

- Product Material: EPDM
- Glue Content: 13% - 22%
- Particle Size: 1-3MM, 2-4MM

Purpose

Adding an appropriate amount of rubber particles with high elasticity can effectively simulate the soil and prevent injury when the body collides with the site.

Artificial Grass Integrated Machine

- Sand filling capacity: 1.0-1.2t
- Sand filling width:1450mm
- Moving speed: 1.9-2.2km/h
- Power: 12KW
- No load Reclamation: 1.8 tons
- Overall dimension (L x W x H): 2850mm x 1800mm x 2070mm

Product Parameters

It is used to fill artificial turf with quartz sand and rubber particles. The artificial turf all-in-one machine is a dual-purpose machine for sand filling and grass combing. It uses a diesel engine as the power source. It has convenient construction and high efficiency. It is suitable for sand filling bridge grass in large turf sites. Two sets of brushes are installed at the front and back of the hopper. The brushes are driven by hydraulic transmission to control the height and speed of the brushes. Adjust the hopper angle, control the sand production speed and adjust the sand filling thickness.

ARTIFICIAL GRASS TOOLS

Infill Sand Machine

- Sand filling capacity: 1.0-1.2t
- Sand filling width:1450mm
- Moving speed: 1.9-2.2km/h
- Power: 12KW
- No load Reclamation: 1.8 tons
- Overall dimension (L x W x H): 2850mm x 1800mm x 2070mm

Product Parameters

The front wheel of this machine is supported by two wide wheels, which has low pressure and is not easy to damage the lawn. The rear wheel adopts universal wheel, which can turn flexibly. It is used to fill artificial turf with quartz sand and rubber particles. One way roller is used at the bottom of the hopper for sand unloading. Sand is unloaded evenly when moving forward and not when moving backward. Uniform sand unloading

Artificial Lawn Comber

- Working width: 1500mm
- Working capacity: 4500m²/h
- Power: 3kw (electric)
5.5HP (Honda gasoline engine)
- Weight: 260kg
- Overall dimension (L x W x H): 1800mm x 1250mm x 930mm

Product Parameters

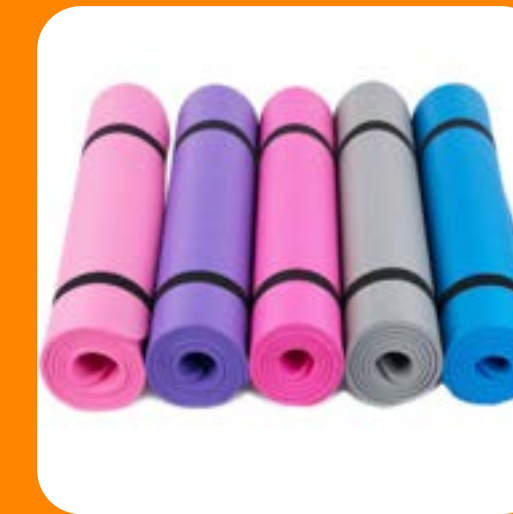

The machine is equipped with an electric or Honda engine direct reducer to drive the sand brush to rotate. The operator can easily pull the machine forward to brush the sand. Rotate the hand wheel and use the screw to adjust the brushing depth to meet the lawn combing requirements.
